Subject: Hickman's Egg Ranch CERCLA 103/EPCRA 304

Attached please find the Notice of Intent to Sue from Don't Waste Arizona to Hickman's Egg Ranch and what we believe are the number of chickens housed at each facility and the estimated emissions of Ammonia. We have a technical expert reviewing those calculations and providing what he believes the hydrogen sulfide emissions would be.

I have also attached some other documents showing our attempts to have this matter addressed.

Thanks,

Steve Brittle
